## **Description of first aid measures**

General advice	Call 911 or emergency medical service. Remove and isolate contaminated clothing and shoes.
Eye contact	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Skin contact	In case of contact with liquefied gas, thaw frosted parts with lukewarm water.
Inhalation	Move victim to fresh air. If breathing is irregular or stopped, administer artificial respiration. Administer oxygen if breathing is difficult.
Ingestion	IF SWALLOWED:. Call a physician or poison control center immediately. Do NOT induce vomiting.
Self-protection of the first aider	Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.
Most important symptoms and effe	cts, both acute and delayed
Symptoms	See section 2 for more information.
Indication of any immediate medica	al attention and special treatment needed
Note to physicians	Keep victim warm and quiet.

# **5. FIRE-FIGHTING MEASURES**

# Suitable extinguishing media

Use extinguishing agent suitable for type of surrounding fire, Dry chemical or CO2, Water spray, fog or regular foam, Move containers from fire area if you can do it without risk, Damaged cylinders should be handled only by specialists

#### Unsuitable extinguishing media None

<u>Specific hazards arising from the chemical</u> Some may burn but none ignite readily. Ruptured cylinders may rocket.

Explosion data	
Sensitivity to Mechanical Impact	None.
Sensitivity to Static Discharge	None.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

	6. ACCIDENTAL RELEASE MEASURES		
Personal precautions, protective e	quipment and emergency procedures		
Personal precautions	Do not touch or walk through spilled material. Stop leak if you can do it without risk.		
Other Information	Ventilate the area.		
Environmental precautions			
Environmental precautions	Use water spray to reduce vapors or divert vapor cloud drift. Avoid allowing water runoff to contact spilled material. Prevent entry into waterways, sewers, basements or confined areas.		
Methods and material for containm	ent and cleaning up		
Methods for containment	If possible, turn leaking containers so that gas escapes rather than liquid. Allow substance to evaporate.		
Methods for cleaning up	Do not direct water at spill or source of leak.		
Prevention of secondary hazards	Clean contaminated objects and areas thoroughly observing environmental regulations.		
	7. HANDLING AND STORAGE		
Precautions for safe handling			
Advice on safe handling	Ensure adequate ventilation, especially in confined areas. Avoid breathing vapors or mists. Avoid contact with skin, eyes or clothing. Contents under pressure. Do not puncture or incinerate cans. Use personal protective equipment as required. Avoid contact with eyes. Do not stick pin or any other sharp object into opening on top of can.		
Conditions for safe storage, includ	ing any incompatibilities		
Storage Conditions	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Store locked up. Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights,
