4. First Aid Measures

Emergency and First Aid Procedures

EYES: If symptoms develop, immediately remove person away from exposure & into fresh air. Flush eyes gently with water FOR AT LEAST 15 MINUTES while holding eyelids apart. See immediate medical attention.

SKIN CONTACT: Remove contaminated clothing. Wash exposed area with soap and water. If symptoms persist, seek medical attention. Launder clothing before reuse.

INHALATION: If symptoms develop, immediately remove person away from exposure and into fresh air. Seek immediate medical attention. If breathing is difficult, administer oxygen. Keep person warm and quiet until medical help arrives.

INGESTION: Swallowing small amounts during handling is not likely to cause harmful effects unless it occurred repeatedly over time.

Signs and Symptoms Of Exposure

EYES: Can Cause eye irritation. Symptoms include: redness, stinging, tearing and swelling.

SKIN CONTACT: Can cause moderate skin irritation. Symptoms include redness, burning and delayed skin rash.

INHALATION & INGESTION: Immediate and/or delayed overexposure from breathing, swallowing, and skin absorption would result in one or more of the following symptoms: nausea, vomiting, diarrhea, respiratory irritation, cough, light headedness, weakness and fatigue.

Respiratory Equipment (Specify Type)

If workplace exposure limits of product or any component is exceeded, a NIOSH approved air supplied respirator is advised.

Eye Protection

Chemical splash goggles are advised if there is any chance of splashing.

Protective Gloves

Wear chemically resistant gloves such as natural rubber, nitrile rubber, polyvinyl chloride (PVC).

Other Protective Clothing

To prevent repeated or prolonged skin contact, wear impervious clothing and boots.

Engineering Controls (Ventilation etc.)

Provide sufficient mechanical ventilation (general and/or exhaust, as needed) to maintain exposure below TLV's.

Work/Hygienic/Maintenance Practices
