

# Got a problem that needs fixing?

Turn your problems into solutions with product kits by Imperial.

## Why waste time chasing around parts?

Imperial Experts help you by developing custom product kits that add value by delivering time and labor savings. The selection of products for kits are based on each situation, quality and performance. Choose Imperial to help you solve the problem, no matter how simple or complex.

## What can we do for you?

Call 1-800-558-2808 to begin building your kit today.

### CSA Kits

CSA Kits offer an organized way to maintain fleet and driver safety and reduce violations. Each customer has different needs unique to their fleets, and we customize the kits accordingly. Most CSA kits contain lamps, bulbs, fuses and reflective tape. Packaging options range from a zip lock bag to a soft or hard sided tool box.

### Project Based Kits

Kits can offer solutions and savings for both labor and organization on projects. All the pieces for a retrofit, refurbishing or planned maintenance are packaged together in specific quantities needed for the project, reducing shop time spent gathering materials.

### Solution Based Kits

For recall campaigns or problem based projects, kits can add organization and reduce shop expenses. Kits are also a tool to reduce the remaining inventory of the items needed for the "fix" and are not part of everyday shop inventory.

National Distributor of Quality Maintenance Supplies Since 1958.
