

RTX-9 SERIES APPLICATIONS

All Purpose Cleaner-Degreaser

RTX 9 works with hot or cold, fresh or salt water. Mix appropriate solution using the Applications/ Dilution Ratio chart below.

These are guidelines; cleaning jobs vary.

Try the economical ratio suggested first; then strengthen or repeat application if necessary.

If in doubt, spot test on hidden surface first. Do not use on leather, suede, pearls, opals, plastic vehicle instrument panels, or non-washable surfaces.

NOTES

1	Unplug cord from outlet. Do not get RTX 9 or water in cord connection, cord or plug.
2	Do not spray directly on surfaces. Apply to rag and wipe.
3	Wet surface first, apply RTX 9, scrub if necessary, rinse.
4	Four to five squirts of RTX 9 over dishes on each rack. Use 1/2 to 2/3 regular amount of detergent.
5	Always spot test on hidden area first.
6	Do not use on unfinished wood furniture.
7	Pearls, opals, or other porous stones should not be exposed to any cleaning solution.
8	Washing Machines: Add 1/4 cup RTX 9 to water-filled tub. Use 1/2 or less of suggested amount of regular detergent.
9	Thoroughly wet fur, pour on (avoiding eyes), rub fur, rinse thoroughly.
10	Wet floor with hot water, apply RTX 9, let stand for several minutes, rinse with hot water.
11	Do not use on plastic instrument panel. Protect from overspray.
12	Full-Strength on Diesel Smoke Residue

Please contact your local Environmental Agency to learn and obey all state and federal regulations regarding the disposal of effluent and rinse water into sewer systems, gutters, storm drains, and waterways.
