

Kit Name **Metal Bonding Adhesive**

Stock No. 06419

Manufacturer Name: Saint-Gobain Abrasives, Inc. 1 New Bond Street Worcester, MA 01615

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product Name: Metal Bonding Adhesive (Part 1)

Product Code: 06419A

SpeedGrip Metal Door Skin Bonding Adhesive (45 minutes) Synonyms:

Manufacturer Name: Saint-Gobain Abrasives, Inc. Address: 1 New Bond Street Worcester, MA 01615 Website: www.Nortonabrasives.com

General Phone Number: 800-551-4413 Emergency Phone Number: 508-795-5000

CHEMTREC: For emergencies in the US, call CHEMTREC: 800-424-9300 Canutec: In Canada, call CANUTEC: (613) 996-6666 (call collect)

SECTION 2: COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS#	Ingredient Percent	EC Num.
Methacrylate phosphate ester	Proprietary	5 - 10 by weight	
Methacrylate Blend	Proprietary	5 - 10 by weight	
Methacrylic acid	79-41-4	5 - 10 by weight	607-088-00-5
Methyl Methacrylate Monomer	80-62-6	30 - 60 by weight	607-035-00-6

SECTION 3: HAZARDS IDENTIFICATION

Emergency Overview: WARNING! Flammable. Harmful. Skin Sensitizer.. Irritant.

Route of Exposure: Eyes. Skin. Inhalation. Ingestion.

Potential Health Effects:

Can cause moderate irritation, burning sensation, tearing, redness, and swelling. Overexposure may cause lacrimation, conjunctivitis, corneal damage and permanent injury. Eve:

Skin: Can cause skin irritation; itching, redness, rashes, hives, burning, and swelling. Allergic reactions are

possible. May cause skin sensitization, an allergic reaction, which becomes evident on reexposure to this

material.

Inhalation: Respiratory tract irritant. High concentration may cause dizziness, headache, and anesthetic effects. May cause respiratory sensitization with asthma-like symptoms in susceptible individuals

Ingestion: Causes irritation, a burning sensation of the mouth, throat and gastrointestinal tract and abdominal

Chronic Health Effects: Prolonged skin contact may lead to burning associated with severe reddening, swelling, and possible

tissue destruction.

Signs/Symptoms: Overexposure can cause headaches, dizziness, nausea, and vomiting.

Target Organs: Eves, Skin, Respiratory system, Digestive system, Central nervous system, Liver, Kidney, Olfactory

Aggravation of Pre-Existing Individuals with pre-existing skin disorders, asthma, allergies or known sensitization may be more Conditions:

susceptible to the effects of this product.

SECTION 4: FIRST AID MEASURES

Eve Contact: Immediately flush eyes with plenty of water for at least 15 to 20 minutes. Ensure adequate flushing of

> Metal Bonding Adhesive Product Code: 06419 Revision:: 07/01/2013

the eyes by separating the eyelids with fingers. Get immediate medical attention.

Immediately wash skin with plenty of soap and water for 15 to 20 minutes, while removing contaminated clothing and shoes. Get medical attention if irritation develops or persists. Skin Contact:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Seek immediate medical attention.

Ingestion: If swallowed, do NOT induce vomiting. Call a physician or poison control center immediately. Never give

anything by mouth to an unconscious person.

Due to possible aspiration into the lungs, DO NOT induce vomiting if ingested. Provide a glass of water to dilute the material in the stomach. If vomiting occurs naturally, have the person lean forward to $\frac{1}{2}$ Other First Aid:

reduce the risk of aspiration.

SECTION 5: FIRE FIGHTING MEASURES

Flammable Properties: Flammable. Fine mists explosive below flash point.

Flash Point: 60°F (15°C)

Flash Point Method: Setaflash Closed Cup Auto Ignition Temperature: Not determined.

Lower Flammable/Explosive Limit: 1.6% Upper Flammable/Explosive Limit: 8.8%

Evacuate area of unprotected personnel. Use cold water spray to cool fire exposed containers to Fire Fighting Instructions:

minimize risk of rupture. Do not enter confined fire space without full protective gear. If possible,

contain fire run-off water.

Use foam, water fog, carbon dioxide (CO2) or dry chemical when fighting fires involving this material. Extinguishing Media:

Protective Equipment: As in any fire, wear Self-Contained Breathing Apparatus (SCBA), MSHA/NIOSH (approved or equivalent)

and full protective gear.

Unusual Fire Hazards: Sealed containers at elevated temperatures may rupture explosively and spread fire due to

> 2 3

polymerization.

Universal Fire And Explosion

Hazards:

Flammable liquid and vapor. Keep containers tightly closed. Isolate from heat, electical equipment, sparks, open flame, and other sources of ignition. Closed containers may rupture when exposed to extreme heat. Use water spray to keep fire-exposed containers cool. During a fire, irritating and/or

toxic gases and particulate may be generated by thermal decomposition or combustion.

NFPA Ratings:

NFPA Health: NFPA Flammability: NFPA Reactivity:

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions: Avoid breathing vapors. Notify proper authorities if necessary. Avoid contact. Evacuate area and keep

unnecessary and unprotected personnel from entering the spill area

Environmental Precautions: Avoid runoff into storm sewers, ditches, and waterways.

Spill Cleanup Measures:

Absorb spill with inert material (e,g., dry sand or earth), then place in a chemical waste container. Provide ventilation. Collect spill with a non-sparking tool. Place into a suitable container for disposal. Clean up spills immediately observing precautions in the protective equipment section. After removal, flush spill area with soap and water to remove trace residue.

Flammable, eliminate ignition sources. Vapors can form an ignitable mixture with air. Vapors can flow along surfaces to distant ignition sources and flash back. Ventilate area. Use proper personal

protective equipment as listed in Section 8.

Other Precautions: Pump or shovel to storage/salvage vessels. Add inhibitor to prevent polymerization.

SECTION 7: HANDLING and STORAGE

Use with adequate ventilation. Avoid breathing vapor, aerosol or mist. Material will accumulate static charges which may cause an electrical spark (ignition source). Use proper grounding procedures. Do not Handling:

reuse containers without proper cleaning or reconditioning.

Storage: Store in a cool, dry, well ventilated area away from sources of heat, combustible materials, direct sunlight, and incompatible substances. Keep container tightly closed when not in use.

Special Handling Procedures: Provide appropriate ventilation/respiratory protection against decomposition products (see Section 10)

during welding/flame cutting operations and to protect against dust during sanding/grinding of cured product. Hazardous liquid or vapor residue may remain in emptited container. Do not reuse, heat, burn, pressurize, cut, weld, braze, solder, drill, grind, expose to sparks, flame, or ignition sources of empty containers without proper commercial cleaning or reconditioning.

Hygiene Practices: Wash thoroughly after handling.

SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION - EXPOSURE GUIDELINES

Engineering Controls: Use appropriate engineering control such as process enclosures, local exhaust ventilation, or other

engineering controls to control airborne levels below recommended exposure limits. Good general ventilation should be sufficient to control airborne levels. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.

Product Code: 06419

Eye/Face Protection Wear appropriate protective glasses or splash goggles as described by 29 CFR 1910.133, OSHA eye

and face protection regulation, or the European standard EN 166.

Use neoprene, nitrile or rubber gloves and other protective apparel to prevent skin contact. Consult manufacturer's data for permeability data. Skin Protection Description:

Respiratory Protection:

A NIOSH approved air-purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection

Other Protective: Facilities storing or utilizing this material should be equipped with an eyewash and a deluge shower

EXPOSURE GUIDELINES

Methacrylic acid:

Vapor Pressure:

Guideline ACGIH:

20 ppm TLV-TWA: 20 ppm

Methyl Methacrylate Monomer:

50 ppm Guideline ACGIH:

Sensitizer.: Sen TLV-STEL: 100 ppm TLV-TWA: 50 ppm 100 ppm

Guideline OSHA: PEL-TWA: 100 ppm

Notes: Only established PEL and TLV values for the ingredients are listed.

SECTION 9: PHYSICAL and CHEMICAL PROPERTIES

Physical State Appearance: Paste. Off-white. Color: Odor: Sweet.

Boiling Point: 140 - 322°F (60 - 161°C)

Melting Point: Not determined. Density: 9.42 lb/gal Solubility: Insoluble in water. Vapor Density: > 1 (air = 1)

Percent Volatile: By Weight: 0.00% By Volume: 0.00%

Not determined.

Evaporation Rate: Slower than n-butyl acetate.

Not determined. 60°F (15°C) Flash Point:

Flash Point Method: Setaflash Closed Cup Auto Ignition Temperature: Not determined. VOC Content: 0.0 lg/gal, 0.0 g/L

SECTION 10: STABILITY and REACTIVITY

Chemical Stability:

Hazardous Polymerization: Polymerization may occur under certain conditions.

Conditions to Avoid: Oxygen-free atmospheres or inert gas blanketing. Freezing conditions. Material can soften paint and rubber. Extreme heat, sparks, and open flame. Incompatible materials, oxidizers and oxidizing conditions

Incompatible Materials: Oxidizing agents (eg peroxides, nitrates), reducing agents, acids, bases, azo-compounds, catalytic

metals (eg copper, iron), halogens. Free radical initiators. Oxygen scavengers.

SECTION 11: TOXICOLOGICAL INFORMATION

Methacrylic acid:

RTECS Number: 072975000

Skin:

Unreported - Rat LD50: 1600 mg/kg [Details of toxic effects not reported other than lethal dose value] Oral - Mouse LD50: 1250 mg/kg [Details of toxic effects not reported other than lethal dose value] Intraperitoneal. - Mouse LD50: 48 mg/kg [Details of toxic effects not reported other than lethal dose

Unreported - Mouse LD50: 1250 mg/kg [Details of toxic effects not reported other than lethal dose

value]
Oral - Rabbit LD50: 1200 mg/kg [Details of toxic effects not reported other than lethal dose value]

Administration onto the skin - Rabbit LD50: 500 mg/kg [Details of toxic effects not reported other than Administration onto the skin - Guinea pig LD50: 1 gm/kg [Details of toxic effects not reported other

Oral - Rat LD50: 1060 mg/kg [Details of toxic effects not reported other than lethal dose value]

Oral - Rat LD50: 7872 mg/kg [Behavioral - Muscle weakness Behavioral - Coma Lungs, Thorax, or
Respiration - Respiratory depression]

Intraperitoneal. - Rat LD50: 1328 mg/kg [Details of toxic effects not reported other than lethal dose

value]
Subcutaneous - Rat LD50: 7088 mg/kg [Behavioral - Somnolence (general depressed activity)]
Oral - Mouse LD50: 3625 mg/kg [Details of toxic effects not reported other than lethal dose value]
Intraperitoneal. - Mouse LD50: 945 mg/kg [Behavioral - Somnolence (general depressed activity)]
Subcutaneous - Mouse LD50: 5954 mg/kg [Behavioral - Somnolence (general depressed activity)]

Oral - Rabbit LD50: 8700 mg/kg [Details of toxic effects not reported other than lethal dose value] Administration onto the skin - Rabbit LD50: >5 gm/kg [Skin and Appendages - Dermatitis, other (After systemic exposure)]

Oral - Guinea pig LD50: 5954 mg/kg [Behavioral - Somnolence (general depressed activity) Behavioral - Ataxia Gastrointestinal - Changes in structure or function of salivary glands]

Administration onto the skin - Rabbit Open irritation test: 10 gm

Inhalation - Rat LC50: 78000 mg/m3/4H [Details of toxic effects not reported other than lethal dose

value]

Inhalation - Mouse LC50: 18500 mg/m3/2H [Details of toxic effects not reported other than lethal

dose value]

Oral - Rat LD50: 7872 mg/kg [Behavioral - Muscle weakness Behavioral - Coma Lungs, Thorax, or Respiration - Respiratory depression] Ingestion:

Oral - Mouse LD50: 3625 mg/kg [Details of toxic effects not reported other than lethal dose value]

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity No ecotoxicity data was found for the product.

Environmental Fate: No environmental information found for this product.

SECTION 13: DISPOSAL CONSIDERATIONS

Methacrylate phosphate ester:

Waste Disposal: Disposal should be done in accordance with Federal (40 CFR Part 261), State and local environmental

control regulations. If waste is determined to be hazardous, use licensed hazardous waste transporter

Waste Disposal: Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the classifications of hazardous

waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, if applicable, to ensure compliance. Arrange disposal in accordance to the EPA and/or state and local

guidelines.

RCRA Number:

Important Disposal Information: DANGER! Rags, steel wool and waste soaked with this product may spontaneously catch fire if improperly

discarded or stored. To avoid a spontaneous combustion fire, immediately after use, place rags, steel wool or waste in a sealed, water-filled, metal container.

Page 5 of 9

Inhalation: Respiratory tract irritant. High concentration may cause dizziness, headache, and anesthetic effects.

May cause respiratory sensitization with asthma-like symptoms in susceptible individuals.

Ingestion: Causes irritation, a burning sensation of the mouth, throat and gastrointestinal tract and abdominal

Chronic Health Effects: Prolonged skin contact may lead to burning associated with severe reddening, swelling, and possible

tissue destruction

Signs/Symptoms: Overexposure can cause headaches, dizziness, nausea, and vomiting.

Target Organs: Eyes. Skin. Respiratory system. Digestive system.

Aggravation of Pre-Existing Conditions: Individuals with pre-existing skin disorders, asthma, allergies or known sensitization may be more susceptible to the effects of this product.

SECTION 4: FIRST AID MEASURES

Eve Contact: Immediately flush eyes with plenty of water for at least 15 to 20 minutes. Ensure adequate flushing of

the eyes by separating the eyelids with fingers. Get immediate medical attention

Immediately wash skin with plenty of soap and water for 15 to 20 minutes, while removing contaminated clothing and shoes. Get medical attention if irritation develops or persists. Skin Contact:

If inhaled, remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained

personnel. Seek immediate medical attention

If swallowed, do NOT induce vomiting. Call a physician or poison control center immediately. Never give Ingestion:

anything by mouth to an unconscious person.

SECTION 5: FIRE FIGHTING MEASURES

Flash Point: 201°F (93.3°C) Flash Point Method: Setaflash Closed Cup Auto Ignition Temperature: Not determined.

Lower Flammable/Explosive Limit: Not determined. Upper Flammable/Explosive Limit: Not determined.

Evacuate area of unprotected personnel. Use cold water spray to cool fire exposed containers to Fire Fighting Instructions:

minimize risk of rupture. Do not enter confined fire space without full protective gear. If possible,

contain fire run-off water.

Extinguishing Media: Use foam, water fog, carbon dioxide (CO2) or dry chemical when fighting fires involving this material.

As in any fire, wear Self-Contained Breathing Apparatus (SCBA), MSHA/NIOSH (approved or equivalent) and full protective gear. Protective Equipment:

Unusual Fire Hazards: Organic peroxides can decompose violently if heated strongly while confined. Sudden reaction and fire

may result if product is mixed with an oxidizing agent. Sealed containers at elevated temperatures may rupture explosively and spread fire due to polymerization.

NFPA Ratings:

Inhalation:
